WORK EXPERIENCE

DevTeam IT Firm
JUN 2020 - DEC2021

- Built RESTful APIs that served data to our JavaScript front-end based on dynamically chosen user inputs that handled over 200,000 concurrent users
- Develop 10 + full-stack web applications to analyze and process data for different clients
- Work closely with app development team including ,project manager ,developers and QA to determine problem testing methods , and best practices.

IPMC COLLEGE OF TECHNOLOGY
JUN 2018 - JUN 2020

- Handled the company's online presence – regularly updated the company's website and various social media accounts
- Checked structure, conformance and browser compatibility of code with validation processes. Prepared presentations for prospective clients
- Managing back-end of web applications: PHP(OOP) , Laravel
- Enhanced web sites and applications by developing robust databases.
